IN PERSON EVENTS

National Conference

The National Conference is the major event in The Housing Forum's busy year and is highly rated by our audience of over 300 leading sector figures. Delegates include housing associations and local councils, contractors/developers, suppliers and manufacturers, consultancies and representatives from government departments and public bodies including Government departments and Homes England.

Our panels of speakers provide deep sector knowledge and insights, the place where we develop solutions in partnership to address the profound current challenges in supply, safety and regulation.

Development Partnership Forums

Our Development Partnership Forums are in person events that give members an opportunity to visit different locations around the country, hearing about emerging issues and innovative new practices in housing development and regeneration. Each Forum consists of a half-day conference-style presentations and discussion followed by lunch and then a site tour.

CEO Forums - Invite only

The Housing Forum holds regular leadership forums to build influence at senior level across all organisations involved in the building and maintenance of homes. These are by invitation only and sponsored by individual members.

Members Morning

This annual event held in central London is an opportunity for Housing Forum members to come together to hear a few highlights of the last year, discuss a topical area of interest and hear about events the coming year.

ONLINE EVENTS

Lunchtime Learning webinars

Our lunchtime webinars are focusing on one topic, with two speakers, plus Q & A. A wide range of topics are covered – generated from our members' interests and offers to share their knowledge with other members.

Housing Asset Strategy Forums

Since 2021, these webinars have discussed all aspects of maintaining and improving existing housing stock – recent topics have included building safety, stock management strategy and decarbonisation. **The June event will be held in person, venue to be confirmed.**

Decarbonisation & Sustainability Forums

A quarterly webinar series to hear the latest updates on the impact of decarbonisation and sustainability. These cover both newbuild low-carbon homes and retrofitting existing homes as well as wider issues such as biodiversity and water usage.

Autumn and Spring Conference

These twice-yearly online conferences are brought to you by our Councils Network. They attract a wide range of local authority delegates and many other members of The Housing Forum working in partnership.

The conference will include keynote sessions and breakout sessions. Topics and speakers will be confirmed nearer the time.

Themes covered in previous Councils Conferences include:

- Housing market update
- Building Safety
- Innovate housing options
- Procurement
- Local authorities and development
- Retrofitting and improving the existing housing stock.

There will also be small group networking and discussion sessions, to give delegates a chance to interact.

The agenda is supported by our influential Local Councils Advisory Group drawn largely from our 75+ Councils Network.
